Hafa Adai Ms. Mabeus,

We confirm receipt of your request for documents.

Under Guam law, where there is a need to inspect more than ten separate records (in this case we have requested that several email accounts be reviewed for documents responsive to your request), the producing government agency may extend the time period for response up to ten (10) days. While we anticipate being able to provide you with the responsive documents much quicker than that, please be advised that the Office of the Governor invokes the extension of time permitted under Guam law.

Thank you.

On Wed, Apr 15, 2020 at 6:07 AM courtneymabeus <courtney.mabeus@gmail.com> wrote:

Dear FOIA Officer,

Pursuant to the Guam's Sunshine Act/Freedom of Information Act, I am requesting:

Any and all copies of memos, reports, letters, correspondence, interviews emails and another other supplementary material, between the office of Gov. Lourdes "Lou" Leon Guerrero and the U.S. Navy, to include but not limited to Joint Region Marianas staff, related to the USS Theodore Roosevelt's arrival and continued stay at Naval Base Guam from March 2020 through the current date.

Please include, but do not limit your search, to the following email accounts: Guam Gov. Lourdes "Lou" Leon Guerrero, Guam Lt. Gov. Joshua Tenorio and any and all communications staff.

Please note that this request relates directly to the USS Theodore Roosevelt and the ongoing threat of COVID19. As such, I suggest using the following search terms including Capt. Brett Crozier, "TR," aircraft carrier, crew, sailor, hotels, USS Theordore Roosevelt, etc.

As you know, the law requires the release of all responsive records. As such, please refrain from withholding documents en masse. Instead, redact the exempt material and provide the responsive record. My preference is to receive corresponding records in an electronic format via email to courtney.mabeus@gmail.com.

As provided by the open records law, I request a response within four business days. I represent a news organization and request expediting processing and a waiver of fees because this request is made as part of a news gathering activity and is not intended for commercial use.

If you choose to deny this request, please provide a written explanation for the denial including a reference to the specific statutory exemption(s) upon which you rely.

Please contact me at courtney.mabeus@gmail.com or 919.757.1112 if I can clarify or expedite this request. If I need to direct this request to another person, please let me know.

Thanks in advance,  
Courtney Mabeus

Subject: Rooms checking in ASAP

Good Evening,

I hope all is well.

The aircraft carrier, USS CVN 71, is looking to book rooms checking in ASAP. I have sent over the information in CI/TY. Please reference opportunity#M-KXYW8MG. They are looking for 5000 rooms though I understand you have at your property and the has closed its doors temporarily

I have copied the main contact so that you can communicate on availability and rate. We are looking to book under the per diem rate if possible. This can certainly be ROH as well and all rooms will be individual pay.

Thank you and we look forward to working with you.

**Travel Brilliantly.**

Commander, Joint Region Marianas  
Department of the Navy  
Building 200(b) (6)  
Halsey Drive, Nimitz Hill  
Piti, Guam 96915

**Dear Rear Admiral Menoni:**

Thank you for your frank and regular communication with me regarding the quickly changing circumstances under which we are now having to operate. I know you appreciate that the news of the arrival of the USS Theodore Roosevelt at U.S. Naval Station Guam has caused me great concern for our community – both inside and outside the gate.

I write to memorialize our discussions relative to the response efforts that will be directed to the USS Theodore Roosevelt. First, you have represented all personnel aboard the USS Theodore Roosevelt will be tested utilizing Department of Defense resources, thereby refraining from placing additional pressure on Guam's local testing capacity.

Second, the guidelines set out by the Centers for Disease Control will govern all quarantine and isolation protocols utilized and such quarantine and isolation efforts will be limited to facilities on Naval Station Guam property. As part of the quarantine and isolation efforts, and except for DOD personnel who may be directly working with the COVID-19 response as it relates to the USS Theodore Roosevelt, Naval Station Guam civilians, service members, and dependents will not have contact with individuals on the carrier.

I also understand Naval Station Guam will remain open and its facilities available to individuals with authorized access, including the Naval Exchange and the Commissary.

I cannot overemphasize the importance of continuing to keep me briefed on this matter. During non-emergency times, Guam's resources were already scant. And while we have always been an inviting and giving people, we all know that Guam cannot afford to have thousands of Sailors weighing on its fragile health care infrastructure. This is something to which we both agree.

To: Rear Admiral Menoni

**Re: USS Theodore Roosevelt**

**Dear Rear Admiral Menoni:**

I understand well your obligation to care for and protect the Sailors who are aboard the USS Theodore Roosevelt. I have a similar obligation to the people of Guam. It is my duty to guard against the public health threat that is COVID-19. I take this duty very seriously and it is for this reason that I will not oppose your request to move the Sailors from the carrier, provided that such movement is conditioned on the following demands:

1. Ensure that the Department of Defense and, consequently, the federal government, has exhausted its available resources and opportunities to quarantine and/or house personnel of the USS Theodore Roosevelt on federal property before moving to local civilian facilities.
2. No Sailor or other member of your personnel will be allowed to be moved off-base without having tested negative for COVID-19 in the 48 hours immediately prior to movement. Such testing results will be shared with the Guam Department of Public Health and Social Services (DPHSS).
3. Every individual housed in the military's quarantine facilities will be asked to sign a voluntary consent to quarantine on forms prescribed by the DPHSS. A refusal to consent, whether by intentional non-compliance or by mistake will be deemed an involuntary quarantine subject to our local jurisdiction.
4. Medical needs of any of your personnel will be addressed utilizing solely federal assets, whether through the Naval Hospital Guam, or additional medical resources allocated to this endeavor.

**To: Rear Admiral Menoni**  
**Fr: Governor of Guam**  
**Date: April 1, 2020**  
**Re: USS Theodore Roosevelt**

---

**Page 2 of 2**

5. Individuals in the military's quarantine facilities will be restricted in their movement. No movement outside the quarantine facilities will be allowed.
6. The federal government will provide personal protective equipment, at no cost to the private vendor housing the quarantine facilities, amply sufficient for every member of the staff required to work on the premises.
7. The federal government agrees to cover the cost of hazardous differential for exposure to biohazards as established pursuant federal law and regulation for all staff of the private vendor housing the quarantine facilities required to work on the premises. That differential should be no less than 25% for biohazards, including COVID-19.

Understand that I did not make this decision lightly. Already I have heard calls from certain members of our community to oppose this movement. I know that those calls are motivated by the same desire that I have to protect Guam's people. We are an island of limited resources facing an unprecedented challenge. In an effort to meet that challenge, I have had to take several executive actions to limit public, government, and business activities, consolidate our healthcare delivery system, restrict entry to the island, and quarantine even members of our own community.

You are asking our people to accommodate a large influx of individuals. The 4,000 Sailors aboard the USS Theodore Roosevelt amount to approximately 2.5% of our island's total population. We are a welcoming people by nature and I know that there are sons and daughters of Guam aboard the carrier. If we have reason to believe that the quarantine requirements are not being complied with, I will authorize any necessary legal action to enforce compliance.

Received your message from COS Tony Babauta to set up a call with the CNO and Governor Leon Guerrero.

7:30am, Saturday (Guam time) will work for the Governor and COS Babauta

Can you tell me what phone number the Governor will call the CNO?

Thank you.

To confirm, in your email the time suggested to call is Friday, 1530 EST. That would be 5:30am Saturday morning (Guam time).

To keep the call at 7:30a (Guam time), can Governor Leon Guerrero call the CNO 5:30pm Friday (EST)?

Eliza, yes we can make the call work at 5:30pm today and 7:30am your time.

I do apologize as I had the time conversion incorrect!!!! We appreciate the Governor taking the time early on a Saturday morning to speak with Admiral Gilday. He would just like to convey his appreciation and thanks to the governor and Guam for everything surrounding the USS THEODORE ROOSEVELT and her crew

Here is CNO's cell number: (b) (6)

I believe you just need to dial (b) (6). You are more than welcome to do a test call now with my cell (b) (6).

May I please have a number for CNO to reach out to the Governor? He may prefer to call her.

I appreciate your patience and assistance!

V/r,

(b) (6)

**FW: Task Force TR Hotel Daily Summary (2 APR)**

1 message

TO: [REDACTED] @fe.navy.mil <[REDACTED]@fe.navy.mil>  
 To: tony.babauta@guam.gov

Fri, Apr 3, 2020 at 1:57 AM

**Tony,**

**FYSA, FOUO**

**Thanks for all the assistance**

**Sent with BlackBerry Work**  
([www.blackberry.com](http://www.blackberry.com))

[illegible]**RDM L Menoni.****BLUF:**

TF TR Hotel reached IOC today with the transport of [REDACTED] TR Sailors via 2 sticks of nine (9) CTF-75 heavy trucks [REDACTED] Sailors each load). Sailors were received by Task Group [REDACTED] and were screened and RSO'd by Navy Med teams and the volunteer crew from CSS-15. [REDACTED] were provide billeting in single person rooms.

### Detail

- First px arrival was at approx 2000 (2 APR) and the loads continued until 0020 (3 APR).
- Quarantine officially set at 0100 3 APR.
- First day px rate of approx 38 per hour. Will improve with repetition in coming days with efficiencies made in travel sequencing, screening and room placement. Goal is 60/ hr.
- CTF 75 heavy trucks were used but after safety (high climb) and access (baggage) assessments, it is recommended to use TR's fleet of 13 pax vans to make runs.
- One CTF75 heavy truck went down for maintenance between first and second run.
- Three (3) Sailors were flagged at the medical screen for having ILI symptoms and were evaluated by on sight PHEO. All three symptomatic Sailors failed screening and were returned to NBG For isolation.
- Minor facilitates inconsistencies at the [REDACTED] likely caused by going from "cold steel" to operations within a 24 hour period. Issues should be resolvable.
- [REDACTED] was also accessed by Guam Hotel and Restaurant Assoc. as our weakest link hotel of all nine proposed properties. So we expected some start up issues.
- The RSOI went decently but will be refined based on multiple LLs from today's IOC run.

#### Proposed 3 APR Schedule:

(b)(3) 10 USC 1305 (b)(6) s next hotel .

Guest Load Target: [REDACTED] with ability to surge to [REDACTED] max occupancy [REDACTED]

- 1200- AAFB sponsors show up and prepare the [REDACTED] resort for RSOI
- 1400 - first flight of vans departs (50 pax).
- 1430 - next 5 vans depart.
- 1500-1700 5 van flights depart every 30 minutes.
- 1745 - last van arrives at [REDACTED]
- 1800 - Dinner delivery begins at hotel.

#### Proposed TF TR Hotel Load Plan:

QUE TIME	HOTELS	ROOMS	OVERFLOW	RESERVE	MOVE IN DATE	LOAD TIME	ARRIVAL
(b)(3) 10 USC 1305b; (b)(6)	[REDACTED]	[REDACTED]	[REDACTED]	[REDACTED]	2-Apr-20	1800	1900
[REDACTED]	[REDACTED]	[REDACTED]	[REDACTED]	[REDACTED]	3-Apr-20	1400	1500
[REDACTED]	[REDACTED]	[REDACTED]	[REDACTED]	[REDACTED]	4-Apr-20	1400	1500
[REDACTED]	[REDACTED]	[REDACTED]	[REDACTED]	[REDACTED]	5-Apr-20	1400	1500
[REDACTED]	[REDACTED]	[REDACTED]	[REDACTED]	[REDACTED]	6-Apr-20	1400	1500
[REDACTED]	[REDACTED]	[REDACTED]	[REDACTED]	[REDACTED]	7-Apr-20	1400	1500
7	(b)(3) 10 USC 1305 (b)(6)	(b)(3) 10 USC 1305 (b)(6)	(b)(3) 10 USC 1305 (b)(6)	[REDACTED]	8-Apr-20	1400	1500

H [REDACTED]

I know in the last few days we have been tag teaming the TR movement and information between GHRA, JRM & GovGuam. We would like to get all updates on this and any other ROM movement from JRM. We have no issues working with GHRA, however, to ensure communications and up to the minute movement, we prefer coordination between JRM/GovGuam.

We appreciate the consideration as we work through many moving parts and processes.

Subject: [REDACTED] Rooms checking in ASAP

Good Evening,

I hope all is well.

The aircraft carrier, USS CVN 71, is looking to book [REDACTED] rooms checking in ASAP. I have sent over the information in CI/TY. Please reference opportunity #M-KXYW8MG. They are looking for [REDACTED] rooms though I understand you have [REDACTED] at your property and the [REDACTED] has closed its doors temporarily.

I have copied the main contact so that you can communicate on availability and rate. We are looking to book under the per diem rate if possible. This can certainly be ROH as well and all rooms will be individual pay.

Thank you and we look forward to working with you.

Travel Brilliantly,

(b) (6)

SENT: 10:50:23CZ (GMT) [REDACTED]@fe.navy.mil <[REDACTED]@fe.navy.mil>  
To: vera.topasna@guam.gov, carlotta.leonguerrero@guam.gov

Thu, Apr 16, 2020 at 11:01 AM

Vera and Carlotta,

Courtesy copy of JRM reply to Senator Perez is attached.  
Let me know if you have any questions.

Thanks

SENT: 10:50:23CZ (GMT)

RESPONSE TO SENATOR PEREZ.pdf  
95K

**DEPARTMENT OF THE NAVY  
JOINT REGION MARIANAS  
PSC 455 BOX 211  
FPO AP 96540-1000**

**5860  
Ser J00/0177  
April 15, 2020**

**The Honorable Senator Sabina Flores Perez  
35<sup>th</sup> Guam Legislature  
194 Hernan Cortes Avenue  
Terlaje Professional Building 1<sup>st</sup> Floor  
Hagatna, Guam 96910**

**Dear Senator Perez,**

**Thank you for your letter of March 27, 2020 inquiring about the Navy's support of the USS Theodore Roosevelt at Apra Harbor, Naval Base Guam (NBG).**

**The novel coronavirus (COVID-19) continues to challenge our island home of Guam in unprecedented ways. A complex set of factors and considerations are in play in order to mitigate risks to the entire island community while maintaining our military's ability to defend our nation**

**The Navy is carefully implementing actions to expeditiously support and care for the ship's crew while preventing the spread of the virus among our Guam-based service members, civilians, families, and our island community. The continued protection of all Guam residents remains a Joint Region Marianas (JRM) priority.**

**The following is provided in response to the questions detailed in your letter.**

**1. "When did Navy officials first suspect positive cases aboard the USS Roosevelt?"**

**The commanding officer of USS Theodore Roosevelt notified Commander, U.S. Pacific Fleet (COMPACFLT) of test results indicative of COVID-19 on March 24, 2020.**

**2. "Is treatment at sea a consideration?"**

**Initial treatment at sea was rendered to four Sailors. However, due to carrier operational requirements and to prevent the further spread of COVID-19, the four Sailors were medically evacuated to U.S. Naval Hospital Guam on March 25, 2020. The intent was to solely utilize military medical treatment capabilities, including U.S. Naval Hospital Guam and military mobile medical facilities to support the crew's treatment and recovery. Our intent was to not use local Guam medical facilities.**

**3. "Will personnel aboard the USS Roosevelt remain quarantined on the ship following a negative test? If not, what is the probability of a false negative with your current testing procedures?"**

**USS Theodore Roosevelt readiness will be maintained by Sailors tested negative for COVID-19. Out of an abundance of caution, Sailors tested negative will also be temporarily sequestered at NBG facilities and contracted hotels for the duration of the Centers for Disease Control and Prevention's (CDC) recommended quarantine period under a no contact, no touch, no**

5860  
Ser J00/0177  
April 15, 2020

interaction basis, beyond medically necessary procedures. As CDC guidelines are being followed for testing procedures and equipment, I defer to the CDC for any info on the probability of a false negative result.

4. "Will local military authorities be providing timely, daily updates on the status of testing, and the condition of those being treated?"

Commander Joint Region Marianas, RDML Menoni has been in near-daily contact with Governor Leon Guerrero and my staff regularly coordinates with the governor's staff regarding the military's COVID-19 updates. I have provided an update to the 35<sup>th</sup> legislature and offered to continue meetings with the senators. You may have also observed that I have been invited to share information in the governor's weekly media conferences. The U.S. Navy provides daily updates on the testing status and results for the crew, as well as how many Sailors have moved ashore. These updates are available at: <https://navylive.dodlive.mil/2020/03/15/u-s-navy-covid-19-updates/>

5. "I'm surprised to learn that military forces on Guam have access to 5,000 tests at this time. Are these tests available for Guam's civilian pandemic response effort? Seeing as the health of civilian and military populations are intertwined, the sharing of resources will help protect both more effectively"

Neither the USS Theodore Roosevelt nor Department of Defense (DoD) commands on Guam had access to 5,000 test kits upon the ship's arrival in Guam. Additional test kits were ordered from off-island to support mission requirements. JRM and DoD forces are committed to supporting the Federal Emergency Management Agency (FEMA) as the lead Federal agency to respond to the COVID-19 pandemic in close coordination with the CDC and other agencies. The DoD as part of our Defense Support of Civil Authorities mission is supporting FEMA and is postured to support the Government of Guam with its COVID-19 response, if requested; however, I defer to FEMA for federal assistance status, inclusive of DoD support, as FEMA is the lead federal agency.

I sincerely thank you for sharing your deep concerns and questions to clarify activities in support of the USS Theodore Roosevelt and the residents of Guam. Our unified efforts will see us through this pandemic.

Sincerely,

(b)(3) 10 USC 130b, (b)(6)

Captain, U.S. Navy  
Chief of Staff

CC: Governor Lourdes Leon Guerrero  
Speaker Tina Muna Barnes, 35<sup>th</sup> Guam Legislature

4/16/2020

Team:

FYSA. Approx [REDACTED] medical staff from the U.S. Army will be arriving over the course of a week to support JRM (TR, Naval Hospital, etc). They will be carrying COVID 19 negative certs within the last 72 hours upon arrival. JRM will help to provide names as they receive them for ease of processing at the Airport. First wave of arrivals will begin tomorrow Apr 7 with [REDACTED] members.

Will keep you posted as updated.

Sincerely,

**Vera Topasna**

NAVADMIN 083/20

MSGID/NAVADMIN/CNIC WASHINGTON DC/N00/MAR//

SUBJ/RESTRICTION OF MOVEMENT (ROM) GUIDANCE//

REF/A/DOC/USD/11MAR20//

REF/B/NAVADMIN/OPNAV/212007ZMAR20//

REF/C/DOC/BUMED/17MAR20//

NARR/REF A IS UNDER SECRETARY OF DEFENSE MEMO, FORCE HEALTH PROTECTION GUIDANCE (SUPPLEMENT 4) - DEPARTMENT OF DEFENSE GUIDANCE FOR PERSONNEL TRAVEL DURING THE NOVEL CORONAVIRUS OUTBREAK. REF B IS NAVADMIN 080/20, NAVY MITIGATION MEASURES IN RESPONSE TO CORONAVIRUS OUTBREAK UPDATE 3. REF C IS BUMED RETURN TO WORK GUIDELINES FOR CORONAVIRUS.//

RMKS/1. REF A requires that personnel returning from a Center for Disease Control and Prevention (CDC) Travel Health Notice (THN) Level 3 or Level 2 location perform a 14 day restriction of movement (ROM). During ROM, Service Members should be restricted to their residence or other appropriate domicile and limit close contact (within 6 feet or 2 meters) with others. This NAVADMIN clarifies the definition of ROM, provides amplifying guidance, and delineates responsibilities for execution of ROM.

## 2. Definitions.

2.a. Restriction of Movement (ROM). General DoD term referring to the limitation of personal liberty for the purpose of ensuring health, safety and welfare. ROM is inclusive of quarantine and isolation.

2.a.(1) Quarantine. Medical term referring to the separation of personnel from others as a result of suspected exposure to a communicable disease. For the world-wide COVID-19 epidemic, this should be imposed on those with no COVID-19 symptoms who have either recently returned from a high-risk location (CDC THN Level 2 or 3), or have had close contact with a known COVID-19 positive patient. The current recommended quarantine period is 14 days. Per CDC, quarantine generally means the separation of a person or group of people reasonably believed to have been exposed to a communicable disease but not yet symptomatic, from others who have not been so exposed, to prevent the possible spread of the communicable disease.

2.a.(2) Isolation. Medical term referring to the separation of personnel from others due either to the development of potential COVID-19 symptoms or as a result of a positive COVID-19 test. Per CDC, isolation means the separation of a person or group of people known or reasonably believed to be infected with a communicable disease and potentially infectious from those who are not infected to prevent spread of the communicable disease. Isolation for public

health purposes may be voluntary or compelled by federal, state, or local public health order.

2.b. Patient (or Person) Under Investigation (PUI). In the case of COVID-19, a PUI is defined as an individual with either a pending COVID-19 test or for whom a test would have been ordered/conducted had one been available.

2.c. Self-monitoring. Per CDC, self-monitoring means people should monitor themselves for fever by taking their temperatures twice a day and remaining alert for the onset of a cough or difficulty breathing. If an individual feels feverish or develops a measured fever, cough, or difficulty breathing during the self-monitoring period, they should self-isolate, limit contact with others, and seek advice by telephone from a healthcare provider or their local health department to determine whether further medical evaluation is needed.

2.d. Close Contact. Per CDC, a close contact is defined as:

2.d.(1) Being within approximately 6 feet (2 meters) of a COVID-19 case for a prolonged period of time; the current recommended threshold is 10 minutes. Close contact can occur while caring for, living with, visiting, or sharing a healthcare waiting area or room with a COVID-19 case, or

2.d.(2) Having direct contact with infectious secretions of a COVID-19 case (e.g., being coughed on).

3. Applicability. ROM applies to all Service Members, who in the last 14 days have either been in:

3.a. An area with ongoing spread of COVID-19 as defined as CDC designated Level 2 and 3 countries (<https://www.cdc.gov/coronavirus/2019-ncov/travelers/map-and-travel-notices.html>), or

3.b. Close contact with a person known to have COVID-19.

3.c. Per REF A, it is strongly recommended that DoD civilian employees, contractor personnel and dependents also follow this guidance.

4. Guidance.

4.a. ROM personnel shall be directed to remain at home or in a comparable setting for 14 days ROM from the day of departure or contact. For transient personnel and those residing in close quarters such as unaccompanied housing or ships, temporary lodging meeting CDC guidance of separate sleeping and bathroom facilities shall be arranged, when available.

4.b. When in ROM, personnel shall avoid congregate settings, limit close contact with people and pets or other animals to the greatest extent possible, avoid traveling, self-monitor, and seek immediate medical care if symptoms (e.g., cough or shortness of breath) develop.

4.c. Personnel assigned ROM may exit quarters to access laundry facilities, outdoor exercise, and designated smoking areas; and conduct other routine tasks not in a public setting provided they maintain social distancing greater than 6 feet from others. Access to messing facilities, stores, fitness centers and other widely used support services is prohibited.

4.d. For temporary lodging, normal room cleaning services will be suspended during the ROM period.

4.e. For personnel executing ROM in private residence, coordinate with parent command for the purchase of required food/hygiene items or arrange delivery through other means.

4.f. After completion of ROM, return to work per REF C and Combatant Commander guidance, if applicable.

5. Responsibilities.

5.a. Parent Command Commanding Officer/Officer in Charge shall:

5.a.(1) Ensure screening of personnel for ROM.

5.a.(2) Ensure ROM personnel comply with paragraph 4.

5.a.(3) If temporary lodging is required:

5.a.(3)A. Provide cost orders for ROM personnel. Orders will direct the Service Member to a ROM status and not TAD to the host installation.

Recommend funding for temporary lodging, if required, be obtained through the Type Commander. This may be accomplished utilizing a General Terms and Conditions document to avoid issues arising from Service Members not having government travel cards.

5.a.(3)B. Coordinate with installation Commanding Officer for room assignment. It is imperative that tenant commands inform installations of all personnel in ROM within government facilities (to include barracks, NGIS, Navy Lodge, PPV family housing, and PPV barracks).

5.a.(3)C. As needed, coordinate messing support with the Commanding Officer where a galley is available. Arrangements will be made between the parent command and the installation for the delivery of meals to Service Members in a ROM status.

5.a.(3)D. As required, provide daily support to ROM personnel to ensure meal delivery as well as health and comfort checks.

5.A.(3)E. Ensure personnel supporting individuals in ROM are trained on the status of ROM personnel and associated interaction protocols. Close contact is prohibited. PPE is not required.

5.a.(4) If private residence is utilized, coordinate with ROM personnel to ensure all messing needs are met.

5.b. Installation Commanding Officers shall:

5.b.(1) Account daily for available temporary lodging to support ROM.

5.b.(2) Track all ROM personnel residing in Navy Lodging (unaccompanied housing, NGIS, Navy Lodge, PPV family housing, PPV barracks) both on and off installation. There is no need for installations to track tenant personnel in a ROM status in private residence/lodging.

5.b.(3) Provide detailed instructions to tenant commands who require temporary ROM lodging support.

5.b.(4) If available, coordinate with parent commands to provide take-out meals for delivery to ROM personnel.

5.b.(5) Ensure temporary lodging staff are trained on the status of ROM personnel and associated interaction protocols. Close contact is prohibited. PPE is not required.

5.b.(6) Follow CDC guidance for cleaning rooms following the ROM period. Ensure the standards are the same across all facilities (unaccompanied housing, NGIS, Navy Lodge).

5.b.(7) For the safety of lodging personnel, ensure clear discrete procedures are in place to identify rooms which are occupied by ROM personnel.

5.b.(8) Ensure fire and emergency services are aware of ROM personnel locations, particularly those in isolation, and are prepared to respond to medical emergencies with appropriate PPE.

6. Entitlements. Per REF B.

7. Reporting Requirements. Per REF B.

8. ROM FAQs.

Question 1. When placed on Restriction of Movement (ROM), can I travel to locations within the fence line of an installation to utilize facilities such as the NEX food court or the gym?

Answer 1. No, during the duration of ROM, Service Members must remain in their rooms with the exception of brief trips to utilize designated smoking areas, walking in the immediate vicinity of the building (usually within 100 feet), and limiting close contact (within 6 feet) with others. If your facility contains an in house gym, do not use it.

Question 2. Can I accept food deliveries from various services?

Answer 2. Yes, food must be placed outside the room. Minimize close contact (within 6 feet).

Question 3. Can my family or friends visit me?

Answer 3. Yes, provided they do not enter your room. Conversations should be held with visitors staying in the passageway outside the room and Service

Members in their room. Minimize close contact (within 6 feet).

Question 4. Can I do my laundry?

Answer 4. Yes, but you should coordinate with your command to utilize in house laundry facilities.

Question 5. How do I obtain personal hygiene items?

Answer 5. Utilize the point of contact provided by your command to arrange for purchase of these items.

Question 6. Will my room be cleaned daily?

Answer 6. No, your room will not be cleaned during your stay. Trash pickup is available by placing your trash can in the passageway.

Question 7. Is Personal Protective Equipment required for personnel in my vicinity?

Answer 7. No, you should limit close contact (within 6 feet) with others.

Question 8. Can I ROM in open bay barracks or in rooms with shared bathrooms?

Answer 8. No, individuals should be placed in separate lodging (when available).

Question 9. Can I use public transportation if in ROM status?

Answer 9. No, individuals on ROM should avoid crowds and public locations.

Question 10. Can I get off ROM early if I was in close contact to a person with COVID-19, and I feel like I am not sick?

Answer 10. No, the Centers for Disease Control (CDC) recommends 14 days of ROM from the last date of exposure to a COVID-19 positive person.

Question 11. What is the difference between quarantine and restriction of movement (ROM)?

Answer 11. Quarantine is a legal public health term used for civilian restrictions and ROM is a military term being used to identify military individuals who are restricted in their movement, generally to their residence.

Question 12. Are my family members at risk if I ROM at home with them?

Answer 12. ROM status is a precautionary step to prevent spread to others.

Considering this, it is recommended that while at home in a ROM status, you practice social distancing. This means try to remain at least 6 feet from other persons, avoid using the same bathroom, or sleeping in the same bed.

Question 13. Can I prepare meals for my family while on ROM?

Answer 13. When in a ROM status, it is recommended you not prepare meals for your family because the virus is spread through respiratory droplets that can land on surfaces such as food. Ideally, you should have other individuals prepare food. If you are the only care giver, make sure you are washing your hands with soap and water for 20 seconds for general food safety. Make sure you cover your nose and mouth when coughing and wash your hands after using the bathroom.

Question 14. Should I be wearing a mask?

Answer 14. Masks will not protect you from inhaling the virus. The virus is very small and can make its way through and around the mask. The best way to prevent being infected or infecting others is to practice social distancing and good hygiene techniques (such as washing your hands regularly with soap and water for at least 20 seconds, avoid touching your face, avoid sick persons, etc).

Question 15. Do I need to clean my house to CDC standards?

Answer 15. It is recommended you maintain a clean living environment as you normally would. This includes frequent hand washing, washing clothing and bedding, and wiping down frequently touched surfaces with a sanitizing wipe or any cleaning product that contains at least 10 percent bleach. The Environmental Protection Agency has a list of products that have been specifically tested as effective in sanitizing surfaces.

9. Released by Vice Admiral M. M. Jackson, Commander, Navy Installations Command.//

**3 Sailors on USS Theodore Roosevelt Have COVID-19; Port Calls Canceled as Navy Investigates Outbreak**  
By: Megan Eckstein  
March 24, 2020 4:23 PM

A U.S. Navy F/A-18E Super Hornet assigned to the Tomcatters of Strike Fighter Squadron (VFA) 31 flies above the aircraft carrier USS Theodore Roosevelt (CVN 71), Feb. 27, 2020. US Navy photo.

**THE PENTAGON - Three sailors aboard USS Theodore Roosevelt (CVN-71) have tested positive for COVID-19 and are being flown off the aircraft carrier to a Defense Department hospital in the Pacific region. These are the first cases of sailors on a deployed ship testing positive for the virus.**

Acting Secretary of the Navy Thomas Modly said the three were being removed from the ship as soon as possible after the positive diagnosis, and any sailors who have been in contact with them recently are being put in quarantine.

"This is an example of our ability to keep our ships deployed at sea

underway even with active COVID-19 cases," Modly said.

While an aircraft carrier is the most spacious ship in the fleet, more than 5,000 sailors are packed into the ship.

The Navy is still investigating how the outbreak on Theodore Roosevelt could have started. Chief of Naval Operations Adm. Mike Gilday said it was unclear where the virus came from - the ship made a port call to Da Nang, Vietnam, 15 days ago, but aircraft have been coming and going with people and supplies.

"In the case of the carrier, she was last in port 15 days ago, but I think it would be difficult to tie down these active cases to that particular port visit. We've had aircraft flying to and from the ship, and so we just don't want to say it was that particular port visit. We took great precautions when that crew came back from that shore period to do enhanced medical screening of the crew," Gilday told reporters today in the Pentagon.

"We are moving very quickly to isolate those cases. In those cases, those sailors are running a temperature and they have some body aches, but we wouldn't necessarily characterize them as requiring hospitalization. But they're positive, those three cases. So we are rapidly removing them from the ship, and we are understanding who they came in contact with over the recent days and weeks so we can begin to take a look inside the ship, how we can isolate and contain as best we can."

Gilday added that the carrier has the capability to test for influenza to rule that in or out as a diagnosis. The carrier also has the ability to swab for COVID-19 and fly the swabs off the ship to the nearest DoD medical facility for testing, which takes just four to six hours after the swab arrives.

U.S. Indo-Pacific Command on Feb. 27 instituted a policy of requiring 14 days between port visits, to ensure U.S. Navy ships weren't spreading the disease around the Pacific. It was around that time that INDO-PACOM Commander Adm. Phil Davidson allowed Theodore Roosevelt to proceed with its planned port visit to Da Nang, which was significant given that Vietnam only allows one warship per country to visit its ports each year.

"At that particular time when the decision was made in late February or early March to pull the ship into Da Nang, which is on the central coast - at that time there were only 16 positive cases in Vietnam, and those were well to the north, all isolated in Hanoi. And so this is a very risk-informed decision by actually the INDO-PACOM commander Adm. Davidson on whether or not we would proceed with that port visit," Gilday said.

"After the port visit we conducted a 14-day isolation period; we just hit day 15" today, the CNO added.

He told USNI News that the Navy is taking a hard look at how the sailors on Theodore Roosevelt could have contracted the disease so that the sea service can implement best practices for the 100 other ships deployed around the globe today.

"In each of these cases, whenever we have a positive on any ship or in any unit, we're doing the forensics on each one of those cases and trying to understand what kind of best practices or the do's and the don't's we can quickly promulgate fleet-wide. So I don't have a better answer for you other than to say we're on it," he told USNI News during the question and answer session.

Still, port visits have been canceled, with deployed ships only being allowed to pull into a port if they need repairs or resupply. Even then,

crew are restricted to the pier and cannot venture out into the port city.

Ohio-class ballistic-missile submarine USS Tennessee (SSBN-734) gold crew returns to its homeport at Naval Submarine Base Kings Bay, Georgia, following a strategic deterrence patrol on Jan. 11, 2020. US Navy Photo

Gilday said the service is taking particular care with the crews on its ballistic missile submarines (SSBNs), which conduct nuclear deterrence missions globally. Those crews are seeing enhanced medical screenings before heading out to sea for training or deployment, including a 14-day period of restricted movement to monitor for any emerging symptoms.

The submarine force has seen zero cases of COVID-19, Gilday made clear.

"We have not missed any operational commitments in the Navy at this time. The impacts to readiness force-wide have been low, but that's not to say that this couldn't spike at any given time," the admiral said.  
"We continue to watch this very closely, every ship, squadron and submarine."

All told, the Navy has 86 active cases of COVID-19 as of today: 57 are Navy military personnel, 13 are Navy civilians, 11 are dependents and five are Navy contractors, Modly said during the event.

Despite those cases, "our ships are sailing, our planes are flying, and training is still happening to safeguard our U.S. national interests and those of all our allies and partners around the world."

**20-023 Medical Evacuation Conducted for Sailors embarked on USS Theodore....pdf**  
126K

**COMMANDER, JOINT REGION MARIANAS**

**Public Affairs Office**

**Main:**

**E-Mail: CJRMPAO@fe.navy.mil**

---

**FOR IMMEDIATE RELEASE**

**Press Release 20-023**

## **Medical Evacuation Conducted for Sailors embarked on USS Theodore Roosevelt**

**ASAN, Guam (March 25, 2020)** – On March 25, Sailors with test results indicative of Coronavirus Disease 2019 (COVID-19) were medically evacuated from USS Theodore Roosevelt (CVN 71) to Guam.

The four Sailors were taken to U.S. Naval Hospital Guam for evaluation and treatment.

Surveillance testing of the four Sailors conducted March 24 was indicative of COVID-19. The individuals were isolated in accordance with CDC guidelines until the Sailors could be flown off the ship.

Joint Region Marianas has been working in cooperation with the Government of Guam to ensure proper advance notification of the patients' arrival on Guam. The patients will be treated at U.S. Naval Hospital Guam and will be isolated at U.S. Naval Base Guam in accordance with CDC protocols.

U.S. Pacific Fleet is committed to taking every measure possible to protect the health of our force, to prevent the spread of the virus, and to ensure continued cooperation with the Government of Guam in our COVID-19 response.

## **PRESS RELEASE: Medical Evacuation Conducted for Sailors embarked on USS Theodore Roosevelt**

1 message

@fe.navy.mil <@fe.navy.mil>

Wed, Mar 25, 2020 at 5:22 PM

Good afternoon,

Please find attached and below press release for your consideration.

This is sent on behalf of the Joint Region Marianas Public Affairs Office.

Very Respectfully,  
LCDR USN  
Public Affairs Officer  
Joint Region Marianas

### **Medical Evacuation Conducted for Sailors embarked on USS Theodore Roosevelt**

ASAN, Guam (March 25, 2020) - On March 25, Sailors with test results indicative of Coronavirus Disease 2019 (COVID-19) were medically evacuated from USS Theodore Roosevelt (CVN 71) to Guam.

The four Sailors were taken to U.S. Naval Hospital Guam for evaluation and treatment.

Surveillance testing of the four Sailors conducted March 24 was indicative of COVID-19. The individuals were isolated in accordance with CDC guidelines until the Sailors could be flown off the ship.

Joint Region Marianas has been working in cooperation with the Government of Guam to ensure proper advance notification of the patients' arrival on Guam. The patients will be treated at U.S. Naval Hospital Guam and will be isolated at U.S. Naval Base Guam in accordance with CDC protocols.

U.S. Pacific Fleet is committed to taking every measure possible to protect the health of our force, to prevent the spread of the virus, and to ensure continued cooperation with the Government of Guam in our COVID-19 response.

Wed, Mar 25, 2020 at 9:26 PM

Krystal,

Good evening. I have two queries (Guam Daily Post, Pacific Island Times) regarding the allegations of service Members "quarantined" in that we discussed.

I have a couple of good leads on tracking this information down and should be able to close the loop tomorrow, hopefully by noon.

Have a good night!

**Joint**

**Information Center - JIC Release**

**No. XX**

**March 26, 2020, 12:30 p.m. (ChST)**

### **USS Theodore Roosevelt to Conduct Additional Medical Evacuations**

The Guam Department of Public Health and Social Services (DPHSS) tested 37 individuals for COVID-19 on Wednesday, March 25, 2020 with conclusive results. Five (5) tested positive for SARS-CoV-2 and 32 tested negative for SARS-CoV-2. The Government of Guam (GovGuam) is aggressively implementing its COVID-19 response to identify and contain transmission of COVID-19 in Guam. With any change in status, anticipate timely notification.

#### **Additional Sailors from USS Theodore Roosevelt to be Medevaced to Guam**

USS Theodore Roosevelt (CVN 71) will be medically evacuating additional Sailors who have tested positive for Coronavirus Disease 2019 (COVID-19). Further surveillance testing of subsequent groups of Sailors conducted on March 25 resulted in additional test results indicative of COVID-19.

The recently tested individuals were isolated aboard the ship following the positive test result, in accordance with U.S. Centers for Disease Control and Prevention (CDC) guidelines. In order to minimize the possibility of further COVID-19 transmission among the crew, Navy leadership made the determination to transport the affected Sailors from the ship to naval facilities on Guam.

The affected Sailors will be treated at U.S. Naval Hospital (USNH) Guam and isolated at U.S. Naval Base Guam in accordance with CDC protocols. The ship's medical staff continues to medically assess the Sailors who tested positive for COVID-19 and those who have had close contact with the affected Sailors.

Joint Region Marianas (JRM) anticipates the need for further medical evacuations to U.S. Naval Hospital Guam as testing continues aboard the ship. JRM will continue to keep GovGuam informed as patients arrive and are medically evaluated at the USNH.

"As a joint region and especially as a U.S. Navy shore facility, we support the needs of the Fleet. We are grateful for the continued cooperation and communication with the Government of Guam as we work to take care of our Sailors and this region," said Rear Admiral John Menoni, commander, Joint Region Marianas.

JRM will continue to coordinate with the Government of Guam Joint Information Center for a daily announcement of the total number of Sailors who have been medically evacuated to naval facilities on Guam. U.S. Pacific Fleet is committed to taking every measure possible to protect the health of our force, prevent the spread of the virus, and to ensure continued cooperation with the Government of Guam in our COVID-19 response.

Much obliged.

We know the ship is on it's way back (Navy officials in Washington) and I know you can't specify when it'll get here. However, can you tell me if you have the over 5000 test kits needed to test these sailors? And, will they be sent to San Diego still or done on-island (for speed)?

Always appreciative,  
Mai Habib

Good morning,

We've been told by Adelup that JRM is to confirm all USS TR details. I am very

alive to the sensitivity of the matter, however, I would also stress that the lack of information is creating panic in the community.

There are now reports of 23 confirmed cases on the ship (see report below). Can you kindly confirm how many positive cases have been found on the USS Theodore Roosevelt?

<https://komonews.com/news/coronavirus/us-aircraft-carrier-has-dozens-sick-with-virus>

<https://www.reuters.com/article/us-health-coronavirus-usa-pentagon-secre-idUSKBN21D1YL>

I have emailed the PacCom contact you passed on yesterday, and have yet to hear back. I can't stress enough that lack of information in this time, is almost worse than the actual facts - as I'm sure you're very much aware of.

Many thanks  
Mai Habib

Hafa Adai [redacted]

There have been questions surrounding the USS Theodore  
Roosevelt, with the 4  
confirmed sailor cases of COVID19.

Will the ship be coming to Guam to drop off more positive  
sailors? Or, will  
more positive confirmed cases off the ship be MEDEVACed here  
to Naval  
Hospital  
or to be put in isolation on bases?

Looking forward to your response.

Many thanks  
Mai Habib

Subject: COVID-19 AND SHIPS

Hello

Thanks for your patience, and the staff is working to update specific information. In the meantime, you can attribute this to me.

"The USS Theodore Roosevelt is in Guam today for a scheduled port visit. For the health and safety of the crew and the local community, Sailors will be limited to the pier, and no other personnel will be allowed to access the pier. For more on the matter, please see [https://www.navy.mil/submit/display.asp?story\\_id=112483](https://www.navy.mil/submit/display.asp?story_id=112483) <[https://www.navy.noclick.mil/submit/display.asp?story\\_id=112483](https://www.navy.noclick.mil/submit/display.asp?story_id=112483)> .

"Also, the Navy will continue releasing daily totals of active duty Sailors and Navy civilians who test positive for COVID-19. You can view the latest at <https://navylive.dodlive.mil/2020/03/15/u-s-navy-covid-19-updates/> <[https://navylive.dodlive.noclick.mil/2020/03/15/u-s-navy-covid-19-updates](https://navylive.dodlive.noclick.mil/2020/03/15/u-s-navy-covid-19-updates/)> . The Pacific Fleet will add its findings daily to this Navy-wide accounting update, including the geographic area to which the affected Sailors are assigned. In the interests of preserving operational security, however, detail concerning specific units will be withheld to prevent compromising operational security."

\*\*\*\*

Also, and please do not attribute to me, but in the event you haven't already seen it and given the nature of your questions, you may be interested also in reading:

## RE: [Non-DoD Source] Aircraft carrier docks in Guam as crew tests for coronavirus | TheHill

1 message

---

To: nestor@kuam.com @fe.navy.mil @fe.navy.mil>

Fri, Mar 27, 2020 at 3:43 PM

Nestor,

Good afternoon!

Please see below, attributable to Lt. Cmdr. [REDACTED], Joint Region Marianas spokesperson:  
\*\*\*\*\*

Q1. Can you confirm the number of sailors who are currently under isolation for COVID-19 symptoms. TheNational media reports there are at least 23 now, is that accurate?

A1. "To protect operational security, we are not disclosing any specific numbers of Sailors with test results indicative of COVID-19."

Q2. Is it true that certain facilities are being prepared/renovated at U.S. Naval Base Guam to accommodate more potential symptomatic personnel? How many, and what are the specific facilities under renovation?

A2. "We are not going to confirm specifics about where USS Theodore Roosevelt Sailors are being quarantined on Naval Base Guam. Personnel in quarantine will be restricted in movement to specific locations on the base, and will not come into contact with the local community."

Q3. Will all the USS T. Roosevelt personnel be tested for COVID-19, and will the testing be conducted here?

A3. "With regard to testing, I would invite you to review the Chief of Naval Operations' statement available at the following link: [https://www.navy.mil/submit/display.asp?story\\_id=112483](https://www.navy.mil/submit/display.asp?story_id=112483)"

Q4. How long is the ship expected to remain here?

A4. "The U.S. Navy does not address future ship movements or operations due to operational security considerations."

Q5. Sorry, one more question: When was the decision made to schedule another Port visit to Guam? Is it unusual to schedule one so close after the previous visit? Thank you.

A5. "The port visit was scheduled prior to the identification of positive COVID-19 cases onboard the ship. Due to operational security considerations, the U.S. Navy does not address future ship movements or operations."  
\*\*\*\*\*

Thank you, and have a great afternoon!

V/R,  
[REDACTED]

Very Respectfully,  
LCDR [REDACTED] USN  
Public Affairs Officer  
Joint Region Marianas

Nestor,

Good afternoon! Unfortunately, I am heading into afternoon meetings and won't have immediate access to my phone.

Email will be the best and most reliable way to relay your questions.

Thank you! Much appreciated.

LCDR

We respectfully request an interview and video opportunity today of the ship, from a distance you deem safe. As you're aware this story has both local and national significance. As a network affiliate we also have a responsibility to provide them with pictures as well.

Thank you,

Nestor Licanto

 **2 APR Press Conference CJRM Opening Statement.docx**  
16K

**GovGuam Press Conference CJRM Opening  
Statement**

**2 APR 2020**

**Governor, thank you for having me here again today. I'm happy to be here. I first want to extend my sincere thanks to the Government of Guam and the Guam Hotel and Restaurant Association for your continued collaboration in developing solutions for getting the USS Theodore Roosevelt crew healthy.**

**I also want to express my appreciation for all of the people on the front lines of the island's fight**

**against COVID-19. I want to highlight the key enablers, healthcare professionals, emergency medical services, grocery store and gas station employees, commissary and NEX employees as well as our local Guam military team. Your sustained efforts enables our combined fight against COVID-19 and allows us to keep your Navy and the Joint Force operating. Thank you for everything you do.**

**Second, I want to put out a request for all of our extended military family on Guam. Naval Base Guam and Andersen Air Force Base announced base access changes due to COVID-19 coming to our island. These measures are designed to keep everyone safe and allow the bases to keep operating smoothly. They prevent excess congestion, from base security having to turn people around that are trying to access base at the wrong times. These measures help prevent congestion, traffic jams, increase traffic safety and will prevent extra frustration for everyone.**

**Most importantly, these measures enable us to maintain social distancing, the key means of preventing the spread of COVID-19, on our bases and at our exchanges and commissaries. Please understand and comply with the base access guidance announced by our bases and everyone will be safe, healthy and still have adequate access to base amenities.**

**Finally, within the next 12-24 hours, we plan to move the first group of COVID-19 negative, asymptomatic TR Sailors to approved commercial lodging for quarantine, in accordance with the Governor's executive order and CDC guidelines. Sailors will only be permitted to depart base following a negative COVID-19 test result and they must remain in quarantine in their assigned rooms for the duration of the mandatory 14-day quarantine, by lawful order of their chain of command and in support of the Governor's Executive Order.**

**Military leadership will be present throughout the lodging to ensure Sailors adhere to quarantine protocols and remain in their rooms. This will be an entirely military-led operation. These Sailors will be transported by military vehicles to the lodging and will not come into contact with the local community during transportation or their stay.**

**We continue to test TR Sailors in order to prevent the spread of COVID-19, to ensure the health and wellbeing of the crew, and to maintain mission readiness.**

**Naval Base Guam and the government of Guam have been working diligently to help TR leadership coordinate COVID-19 mitigation planning and to ensure the safety of all Sailors and the residents of Guam.**

**By getting more Sailors off the ship we are able to more effectively implement social distancing onboard for the remaining crew members required to maintain the ship. The ultimate goal is to get TR back out to sea where she belongs, operating in the defense of our great nation.**

**Theodore Roosevelt Strike Group, Joint Region  
Marianas and the Navy are extremely thankful for  
the overwhelming support from the people of  
Guam in the fight against COVID-19. Thank you.**

FAIR. SAFE.  
PROSPEROUS.  
COMPASSIONATE.

Subject: [Non-DoD Source] verifying these photos

Good evening CMDR [redacted]  
Sending the photos below. These are circulating on social media - insinuating sailors have been disobeying Guam's quarantine rules. Some are also saying this could have been from a prior ship visit. We'd like to give JRM/Navy the opportunity to address this.  
Hope to hear from you.  
Thanks,  
Gaynor

I haven't been able to source the photo. Also this was supposedly taken today...

Of like 15 military people in the water in a group on the beach and like, after all the work we are doing and the craziness about the Roosevelt and assurances from The governor i feel like.....

Slapped in the face

Thanks for the share.

That's not the sailors from the Roosevelt

Okay great

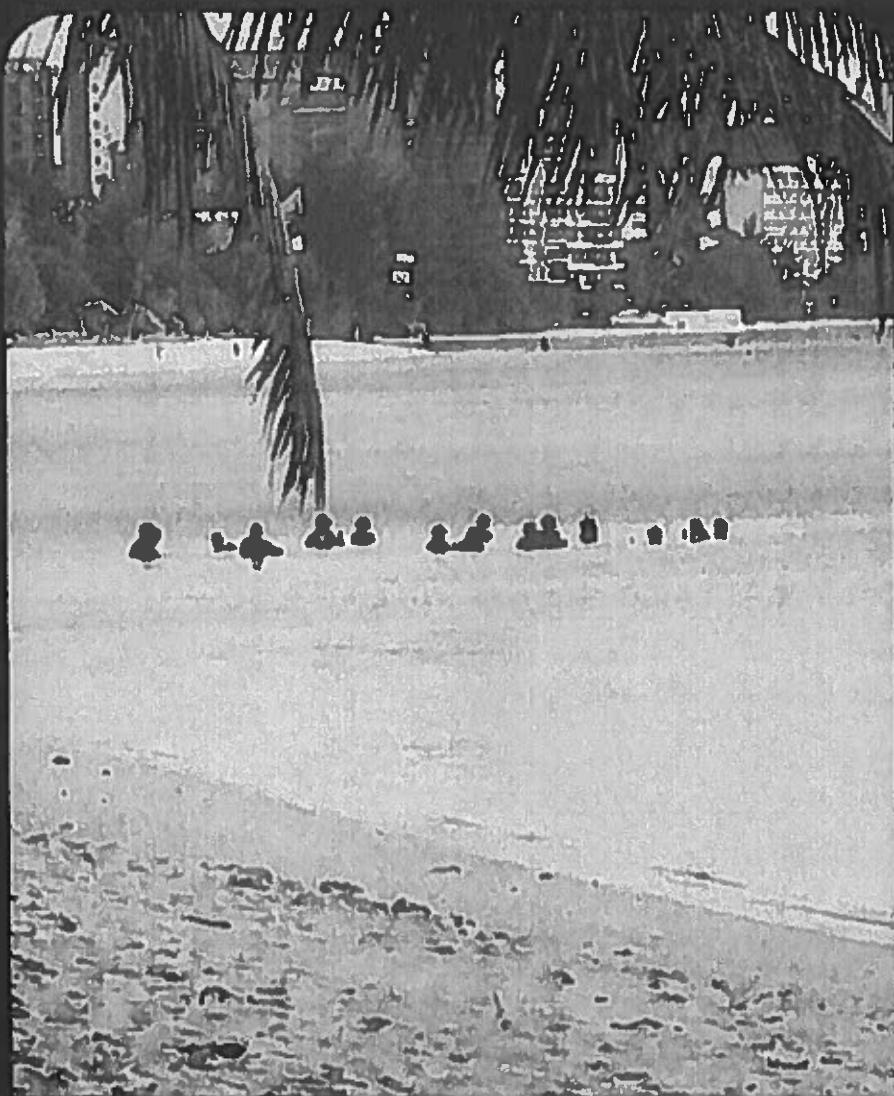

Today 5:35 PM

Josh so can I ask you something?

Yo what's up?

Hey so my Friend was in Tumon an hour ago and took this picture

Today 5:35 PM

Josh so can I ask you something?

Yo what's up?

Hey so my Friend was in Tumon  
an hour ago and took this  
picture

Of like 15 military people in the water in a group on the beach and like, after all the work we are doing and the craziness about the Roosevelt and assurances from The governor i feel like....

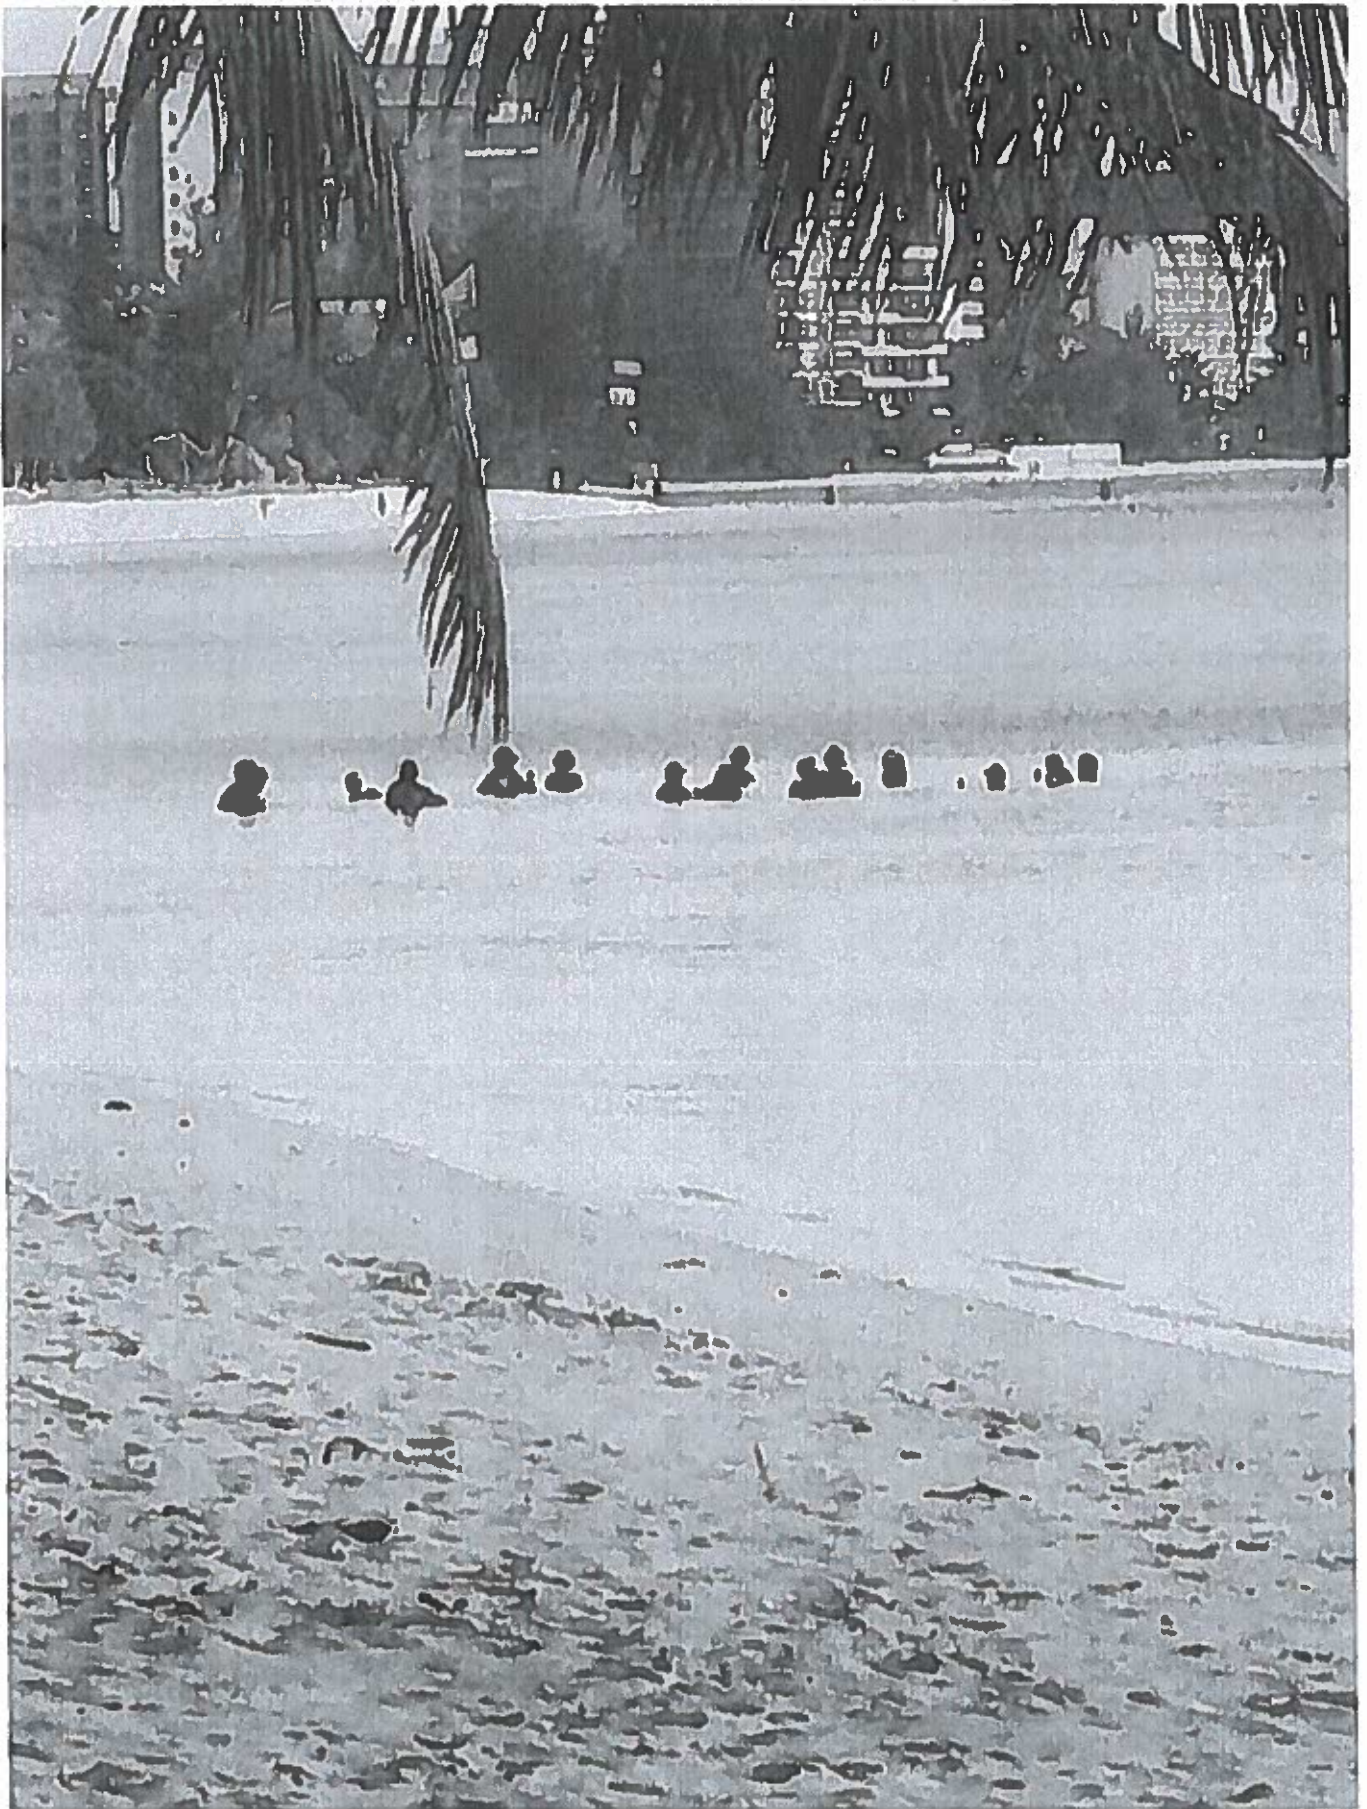

Slapped in the face

Thanks for the share.

That's not the sailors from the Roosevelt

Okay great

Krystal,

Please see the statement below. I am responding to media queries as follows, and this can also be used in a JIC release, at your discretion.

\*\*\*\*\*

"Joint Region Marianas is aware of the photos of service members circulating on social media. The persons featured in the photos are not assigned to USS Theodore Roosevelt (CVN-71) or any of its embarked units.

Although the image with groups of people standing near beach chairs was taken Saturday, March 21, we have confirmed that a number of persons pictured seated and standing in the water near the beach are active-duty Sailors completing a rotational deployment to Guam. Joint Region Marianas Commander Rear Adm. John Menoni has spoken with the Sailors' chain of command, who will conduct all investigative and corrective actions.

In accordance with Health Protection Condition C and the Governor's Executive Order, all service members on Guam are required to restrict unit and social group activities, including at public beaches and parks, and to implement social distancing. Joint Region Marianas is committed to enforcing these measures which are best practices for mitigating the spread of COVID-19."

\*\*\*\*\*

Thank you!

## **PRESS RELEASE: 7th Fleet Commander Arrives in Guam during COVID-19 Recovery**

1 message

@fe.navy.mil

@fe.navy.mil>

Mon, Apr 6, 2020 at 7:47 AM

Hafa Adai,

Enclosed and below is a press release from Commander, U.S. 7th Fleet Public Affairs, for your consideration.

Very Respectfully,  
LCDR [REDACTED], USN  
Public Affairs Officer  
Joint Region Marianas

[https://www.navy.mil/submit/display.asp?story\\_id=112554](https://www.navy.mil/submit/display.asp?story_id=112554)  
<https://www.c7f.navy.mil/Media/News/Display/Article/2137696/7th-fleet-commander-arrives-in-guam-during-covid-19-recovery/>

**7th Fleet Commander Arrives in Guam during COVID-19 Recovery**  
From Commander, U.S. 7th Fleet Public Affairs

APRA HARBOR, Guam (NNS) — APRA HARBOR, Guam (NNS) - The Commander of U.S. 7th Fleet visited USS Theodore Roosevelt (CVN 71) leadership in port at Naval Base Guam while the aircraft carrier undergoes its COVID-19 recovery efforts April 5.

Vice Adm. Bill Merz, commander, U.S. 7th Fleet arrived on Guam to support the ongoing recovery effort on the Nimitz-class carrier, and he met with the crew and area leadership.

"The team in Guam has shown enormous spirit and focus getting this ship healthy again. Know that every day, regardless of what the challenge may be, my number one priority is to sustain the warfighting posture of 7th Fleet, and the most important element of this number one priority is the Sailors," said Merz. "We simply cannot execute the mission of defending our interests, our friends, and our allies without the fighting spirit of the immensely capable men and women of this team. It takes a lot of cooperation and coordination, and although we have a lot of work to do I want to make sure those involved are getting our support and gratitude. The families of our Sailors should be proud of the ongoing efforts and know that we're going to take care of our people."

Vice Adm. Merz visited locations on Naval Base Guam, discussing logistics and the ship recovery process with counterparts from Joint Region Marianas, Carrier Strike Group Nine, and the Naval Base Guam commanding officer.

The ship arrived in Guam Mar. 27 for a scheduled port visit. Prior to the port visit three Sailors tested positive for COVID-19 aboard USS Theodore Roosevelt. The Navy has undertaken an aggressive mitigation plan that is currently isolating, quarantining, and treating affected Sailors to keep the

ship prepared to execute its mission.

The Navy is working closely with the Government of Guam and Joint Region Marianas to follow U.S. Centers for Disease Control (CDC) guidelines to move Sailors safely off ship while continuing to maintain the vessel's readiness to operate at sea.

"Theodore Roosevelt Strike Group is extremely thankful for the overwhelming support from the government of Guam and Naval Base Guam in the fight against COVID-19," said Rear Adm. Stu Baker, commander, Carrier Strike Group Nine. "Even with such short notice, they were able to assist getting our Sailors moved off ship in a short period of time. Their support has been critical to our ability to remain mission ready."

Sailors from Theodore Roosevelt will be using various hotels across the island, allowing them to align with the recommended 14-day quarantine period while also maintaining an all hands effort aboard to sanitize the ship. The all hands effort though does not rest solely with the Roosevelt, but with all who are helping its Sailors get well and back to sea.

"The Joint Region Marianas and Naval Base Guam teams have moved mountains to help our TR shipmates get healthy and back out to sea," said Rear Adm. John Menoni, commander, Joint Region Marianas. "I can't say enough how proud I am of everyone's hard work during this very dynamic situation. Our partners in the Government and the people of Guam have helped us from day one and we are thankful for their assistance helping the TR Team be ready to fight."

U.S. 7th Fleet provides security alongside allies and partners throughout a free and open Indo-Pacific. As the U.S. Navy's largest forward-deployed fleet, 7th Fleet operates roughly 50-70 ships and submarines and 140 aircraft with approximately 20,000 Sailors.

## Guam responses to USS TR

4 messages

Thu, Apr 9, 2020 at 7:02 PM

To: 1mail.com  
Bcc: @fe.navy.mil

**Häfa Adai, .!**

**I received your email. Here are our responses:**

**Is there a reason the crewmembers of the USS Theodore Roosevelt aren't being quarantined on Guam's military bases? Some of them are. According to representatives from Joint Region Marianas, sailors who have tested positive for COVID-19 and do not require acute care are being held at the military base. Hotel accommodations are reserved for those who have tested negative for COVID-19.**

**Are the hotels in which crewmembers are quarantining being staffed by their normal workers? If so, what precautions are being taken to protect them from infection? Frontline hotel staff are members of the military. Any civilian individuals working at the hotel sites are exempt from contact with sailors and are provided PPEs.**

Which hotels are currently being used for the USS Roosevelt quarantine? Please contact Joint Region Marianas PAO Lt. Commander [redacted]

Does the governor's office know how much the Navy is paying for the hotels? Please contact Joint Region Marianas PAO Lt. Commander [redacted]

**To what extent has Governor Leon Guerrero been included in the Navy's decision-making process regarding matters related to the USS Roosevelt? They speak on a daily basis. Admiral Menoni and Governor Leon Guerrero have a close and frank relationship.**

**Has the military shared or offered to share any tests, resources, etc. to GovGuam as it fights the Covid-19 outbreak? Yes.**

**I also want to direct you to view our press conferences with Admiral Menoni. This can give you additional background information.**

To: jprotonmail.com  
Bcc: @fe.navy.mil

Hafa Adai, !

I received your email. Here are our responses:

Is there a reason the crewmembers of the USS Theodore Roosevelt aren't being quarantined on Guam's military bases? Some of them are. According to representatives from Joint Region Marianas, sailors who have tested positive for COVID-19 and do not require acute care are being held at the military base. Hotel accommodations are reserved for those who have tested negative for COVID-19.

Are the hotels in which crewmembers are quarantining being staffed by their normal workers? If so, what precautions are being taken to protect them from infection? Frontline hotel staff are members of the military. Any civilian individuals working at the hotel sites are exempt from contact with sailors and are provided PPEs.

Which hotels are currently being used for the USS Roosevelt quarantine? Please contact Joint Region Marianas PAO Lt. Commander

Does the governor's office know how much the Navy is paying for the hotels? Please contact Joint Region Marianas PAO Lt. Commander

To what extent has Governor Leon Guerrero been included in the Navy's decision-making process regarding matters related to the USS Roosevelt? They speak on a daily basis. Admiral Menoni and Governor Leon Guerrero have a close and frank relationship.

Has the military shared or offered to share any tests, resources, etc. to GovGuam as it fights the Covid-19 outbreak? Yes.

I also want to direct you to view our press conferences with Admiral Menoni. This can give you additional background information.

Krystal,

I am working on our query response to them as well. And honestly, it is a tricky question. Not for attribution [Redacted]

I will work on a releasable statement that explains that better.

## media inquiry from in Hawaii for the Diplomat

11 messages

---

To: Krystal.paco@guam.gov <krystal.paco@guam.gov>  
<krystal.paco@gmail.com>

Fri, Apr 3, 2020 at 3:12 PM

Hello Krystal,

Lt. Gov. Tenorio kindly passed along your email to me. I am a journalist in Hawaii writing an article for the Diplomat that looks at the coronavirus pandemic as it relates to Guam. My piece will take a broader look at Guam's situation and provide context that explains the response, fleshing out the unique challenges Guam faces in terms of health care and emergency response.

I have two or three questions and am hoping to get a response from the Governor. Her input is important, but I realize she is extremely busy. In this case, written answers would be greatly appreciated. I am trying to get this wrapped up by the end of Monday Guam time if possible. May I send my questions your way?

Thank you.

Lihue, Hawaii

<krystal.paco@gmail.com>

Fri, Apr 3, 2020 at 5:11 PM

Krystal, thank you for the quick response. As I said, my article will aim to provide a broader context to how Guam is experiencing and reacting to the coronavirus pandemic. Most readers will have limited knowledge of Guam. My questions for the Governor are as follows:

- 1) What does the Governor see as Guam's greatest strengths, capabilities and assets, as well as its greatest vulnerabilities and complicating factors in facing the COVID-19 pandemic and how are these unique to Guam?
- 2) As a non-self governing territory of the U.S., what many in Guam call a colony, how will Guam's political status influence how it is able to effectively respond to the pandemic and provide healthcare, social, and economic assistance during this crisis?
- 3) How does the Governor respond to critics who see a discrepancy in how she declined to allow the MS Westerdam to dock in February, but has now accepted some 2,700 sailors to quarantine in Tumon hotels? Some say the decision

to accept this risk is evidence that the welfare of Guam's citizens is secondary to the demands and needs of the U.S. military. Other's say there are monetary considerations at play (i.e. financial compensation for Guam. Is that correct? If so, how much?).

4) How does Guam's proximity to Asia and distance from the continental U.S. impact how people on Guam experience the COVID-19 pandemic and how the Leon Guerrero administration is responding?

These are my questions. If you are able to provide answers that can be attributed to the Governor by the end of day Monday 4/6 (Guam time) or sooner, I would be grateful. The Governor's input is important and I appreciate her taking the time to respond.

Respectfully,

Lihue, Hawaii

Krystal, I've got one more question which I hope you can answer: How many COVID-19 tests have been conducted on Guam's civilian population to date and does the Governor feel there is sufficient access to tests at this time?

Thanks for getting back to me before Tuesday 2pm (Guam time) if you can.

Lihue, Hawaii

To: [redacted]@gmail.com>

Mon, Apr 6, 2020 at 4:27 PM

Perfect timing. I was right next to our Public Health Director when I received your email.

To date, 677 tests have been performed by the Department of Public Health and Social Services. (This does not include sailors on USS Theodore Roosevelt).

We will never feel there is sufficient access to tests until all the people of Guam are able to test for coronavirus. We have made several requests for additional test kits and we have been assured more are on the way.

Only when every resident on Guam can be tested will there be a sufficient amount.

**RE: [Non-DoD Source] Al Jazeera: USS Roosevelt**

1 message

To: @fe.navy.mil  
Cc: @protonmail.com @fe.navy.mil

**Fri, Apr 10, 2020 at 2:53 PM**

**Good afternoon. Please find the responses to your query questions.**

They are attributable to me, LCDR  
spokesperson:  
\*\*\*\*\*

**Q1. Why did the Navy decide to use Guam's hotels to quarantine the crew of the Roosevelt? That is, why can't the crew be quarantined on Guam's military bases?**

**A1. USS Theodore Roosevelt (TR) Sailors are being isolated or quarantined at several controlled locations on Naval Base Guam. Regarding the decision to move TR Sailors into hotels in Tumon, Joint Region Marianas collaborated with partners in the Government of Guam and the Guam Hotel and Restaurant Association to develop solutions for extra rooms and social distancing capacity in order to get the crew of TR healthy and to facilitate deep cleaning aboard the ship.**

We continue to transport groups of COVID-19 negative, asymptomatic TR Sailors to approved hotels in Tumon for quarantine, in accordance with the Governor's executive order and CDC guidelines. TR Sailors are only permitted to depart Naval Base Guam following a negative COVID-19 test result and they must remain in quarantine in their assigned rooms for the duration of the mandatory 14-day quarantine, by lawful order of their chain of command and in support of the Governor's Executive Order. The health and safety of our service members and the people of Guam remain our top priority.

**Q2. Do you know if the hotels being used for quarantine are being staffed by their regular workers? If so, what precautions are being taken to ensure that they aren't spreading Covid-19 to their communities?**

**A2. Military leadership and medical personnel are present throughout the hotels to ensure Sailors adhere to quarantine protocols and remain in their rooms. This is an entirely military-led operation. These Sailors are transported in military-controlled convoys to the hotels and do not come into contact with the local community during transportation or their stay. The hotel staffs prepare meals and laundry service, which are transported via service carts to military service members in appropriate PPE and then, in turn, are placed at the door of each quarantined Sailor, without any contact or close proximity between people. No hotel staff directly interact with the TR Sailors or enter their rooms. Military representatives conduct daily medical assessments for these Sailors.**

**Q3. Which hotels is the Navy using? How much is the Navy paying to use these hotels?**

**A3. We are not going to confirm specifics about where USS Theodore Roosevelt Sailors are being quarantined on or off Naval Base Guam. Personnel in quarantine are restricted in movement to their assigned living quarters, and will not come into contact with the local community.**

Regarding cost, we are still calculating the total financial amount to be obligated for the use of these hotels. It is a dynamic situation and we continue to re-assess the lodging requirements as the quarantine process continues and more COVID-19 negative, asymptomatic TR Sailors are transported to hotels.

**Q4. To what extent has the Navy included GovGuam in its decision-making regarding the Roosevelt situation?**

**A4. Joint Region Marianas and its valued partners in the Government of Guam have worked together since March 25 for planning and coordination of efforts for USS Theodore Roosevelt's COVID-19 cases. Joint Region Marianas Commander Rear Adm. John Menoni and Governor Lou Leon Guerrero hold frequent calls and meetings to share updates with the status of the ship's recovery and to plan ahead for future response requirements in this dynamic situation.**

Even before the ship's arrival, the DoD and Guam Department of Public Health and Social Services (DPHSS) established open communication lines in order to combat the COVID-19 pandemic. Our combined public health teams have regular conversations on how to improve our efforts in battling COVID-19, such as providing scientific support to DPHSS, as well as trying to overcome supply issues as they arise. During normal operations, they meet monthly to discuss collaborative efforts to improve the public health to both our DoD beneficiaries as well as the Island as a whole.

**Q5. Is the Navy planning on sharing any resources – tests, personnel, supplies, or anything else – with GovGuam as Guam battles its own coronavirus outbreak?**

**A5. Joint Region Marianas and the Department of Defense, when directed, are postured to support the Governments of Guam and the CNMI with a wide variety of capability-enhancing measures to mitigate the effects of COVID-19.**

Rear Adm. John Menoni, as Task Force West commander, is providing decisive support to FEMA and the government of Guam and CNMI on a combined effort to respond to the medical and logistical challenges emerging from the COVID-19 pandemic. From personnel, equipment, and medical supplies transportation, to designation of Federal Staging Areas, all efforts are focused on providing the conditions that provide Guam and CNMI with the necessary testing and treatment capabilities to protect the community and mitigate the spread of COVID-19.

A team from 3rd Medical Battalion, 3rd Marine Logistics Group arrived in Guam April 1 to augment the current medical capabilities of USS Theodore Roosevelt and Naval Base Guam, but could also be expanded to assist the Government of Guam, if required. This team of medical professionals is currently supporting Naval Base Guam and USS Theodore Roosevelt with medical care by monitoring asymptomatic and symptomatic patients. The team also provides extra acute care or holding beds and critical care beds with ventilators.

During this pandemic in the region, U.S. Naval Hospital Guam's public health emergency officer and her team have collaborated on COVID-19 cases with Guam DPHSS. They continue to have open communication lines when it comes to positive cases. As contact tracing is conducted for any DoD beneficiaries, they are done collaboratively with Guam DPHSS. In addition, U.S. Naval Hospital Guam continues to collect samples for COVID-19 testing, which are sent to laboratories at the Naval Health Research Center in San Diego for evaluation.

-Dr. Thane Hancock and his CDC team remain the lead agency for our collective efforts in combating the pandemic we are facing. U.S. Naval

Hospital Guam will continue to support our community partners as requests come in, and are postured to assist.

Q6. Are you able to share any updated numbers on the Roosevelt situation? I'm specifically wondering about: how many crew members have tested positive; how many crew members are still on board the vessel; how many crew members are quarantining in hotels; where the crew members with positive cases are being isolated.

A6. The U.S. Navy is making daily updates available here:

<https://navylive.dodlive.mil/2020/03/15/u-s-navy-covid-19-updates/>

We are not going to confirm specifics about where USS Theodore Roosevelt Sailors are being quarantined/isolated on or off Naval Base Guam. Personnel in quarantine or isolation will be restricted in movement to their assigned living quarters, and will not come into contact with the local community.

\*\*\*\*\*

Thanks, and have a great weekend!

V/R,

Very Respectfully  
LCDR USN  
Public Affairs Officer  
Joint Region Marianas

LCDR ( [@fe.navy.mil](#) ), USN

Public Affairs Officer

Joint Region Marianas

NIPR: [@fe.navy.mil](#)

Office

Cell: [@fe.navy.mil](#)

DSN: [@fe.navy.mil](#)

13 APR Press Conference CJRM Opening Statement FINAL.DOCX

16K

**GovGuam Press Conference CJRM Opening  
Statement**

**13 APR 2020**

**Governor, thank you for having me here again today. I want to provide the people of Guam and the CNMI a quick update on our efforts with the crew of USS Theodore Roosevelt.**

**Before I get to the update I want to address a couple of items. First, I believe there was an erroneous news report concerning the TR Sailors in quarantine in our local hotels. I want to reiterate that only COVID-19 negative,**

**asymptomatic Sailors are being transported to hotels in Tumon.**

**Second, I want to remind our greater military family, for the health and wellbeing of all authorized patrons to our installations please only come to base during authorized days and times. Those times are listed on each of the installations Facebook pages and websites.**

**Concerning the USS Theodore Roosevelt, the Navy announced today that 92% of the USS Theodore Roosevelt crew have been tested for COVID-19, with 585 positive cases and more than 3700 negative results. There are currently 5 TR**

**Sailors who are hospitalized at Naval Hospital and all are in stable condition.**

**Over 4000 TR Sailors have been safely moved from the ship and are currently at controlled locations on Naval Base Guam and in Tumon. Due to the hard work and dedication of our military and civilian teams over the past three weeks, we have completed this tremendous logistical challenge. Now that we have the social distancing capacity needed for the health and recovery of the crew, we can more efficiently continue our next phase of the operation, including deep cleaning and sanitization of the ship.**

**Finally, we all need to listen to and heed both the medical advice and the control measures we have implemented in order to ensure our collective safety. This virus is a serious enemy and it threatens to undermine our mission and endanger all of us on Guam. Working together we will win this fight but, if we don't do the right thing, we are endangering all of our neighbors and family in the region. Thank you.**

[https://www.navy.mil/submit/display.asp?story\\_id=112614](https://www.navy.mil/submit/display.asp?story_id=112614)

**Navy Sailor assigned to USS Theodore Roosevelt dies of COVID-related complications**

From U.S. Pacific Fleet Public Affairs

PEARL HARBOR (NNS) – The Sailor assigned to the USS Theodore Roosevelt (CVN 71) who was admitted to the Intensive Care Unit (ICU) of the U.S. Naval Hospital Guam April 9 (local date) died of COVID-related complications on April 13.

The name of the Sailor is being withheld until 24 hours after next-of-kin notification.

The Sailor tested positive for COVID-19 March 30, was removed from the ship and placed in an isolation house on Naval Base Guam with four other USS Theodore Roosevelt (CVN 71) Sailors. Like other Sailors in isolation, he received medical checks twice daily from Navy medical teams.

At approximately 8:30 a.m., Apr. 9 (local date), the Sailor was found unresponsive during a daily medical check. While Naval Base Guam emergency responders were notified, CPR was administered by fellow Sailors and onsite medical team in the house. The Sailor was transferred to U.S. Naval Hospital Guam where the Sailor was moved to the Intensive Care Unit (ICU). The Sailor was declared deceased April 13.

USS Theodore Roosevelt arrived in Guam on 27 March for a scheduled port visit for resupply and crew rest.

# **Navy Sailor assigned to USS Theodore Roosevelt dies of COVID-related complications**

From U.S. Pacific Fleet Public Affairs

PEARL HARBOR (NNS) -- The Sailor assigned to the USS Theodore Roosevelt (CVN 71) who was admitted to the Intensive Care Unit (ICU) of the U.S. Naval Hospital Guam April 9 (local date) died of COVID-related complications on April 13.

The name of the Sailor is being withheld until 24 hours after next-of-kin notification.

The Sailor tested positive for COVID-19 March 30, was removed from the ship and placed in an isolation house on Naval Base Guam with four other USS Theodore Roosevelt (CVN 71) Sailors. Like other Sailors in isolation, he received medical checks twice daily from Navy medical teams.

At approximately 8:30 a.m., Apr. 9 (local date), the Sailor was found unresponsive during a daily medical check. While Naval Base Guam emergency responders were notified, CPR was administered by fellow Sailors and onsite medical team in the house. The Sailor was transferred to U.S. Naval Hospital Guam where the Sailor was moved to the Intensive Care Unit (ICU). The Sailor was declared deceased April 13.

USS Theodore Roosevelt arrived in Guam on 27 March for a scheduled port visit for resupply and crew rest.
